

The Harry and Jeanette Weinberg Foundation

WEINBERG FOUNDATION GRANTMAKING SUMMARY

Overview of Foundation Grants &
Activities in Baltimore 2019 – 2021

March 2022

About The Harry and Jeanette Weinberg Foundation

The Weinberg Foundation, one of the largest private charitable foundations in the United States, is dedicated to meeting the basic needs of people experiencing poverty. In 2022, the Foundation expects to provide approximately \$150 million in total grant activity supporting nonprofits that provide direct services in the areas of Housing, Health, Jobs, Education, and Community Services. Grants support organizations that serve a range of populations, including older adults, women at risk and their children, people with disabilities, and veterans, as well as the Jewish community.

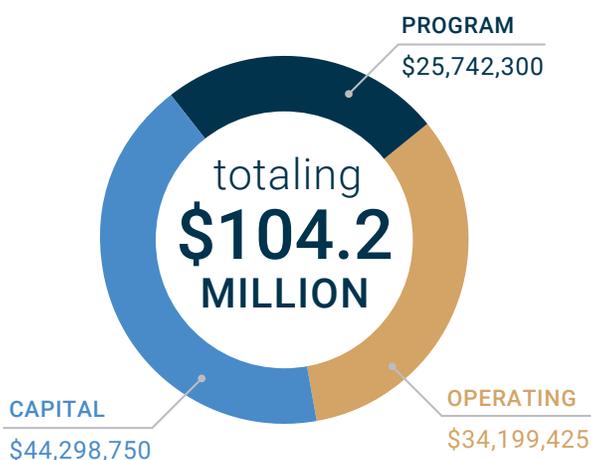

The Foundation administers the majority of its funding in its priority communities: Baltimore, Chicago, Hawai'i, Israel, New York City, Northeastern Pennsylvania, and San Francisco. This includes supporting nonprofits serving federally designated rural areas within, or adjacent to, these priority communities. All of these locations represent personal ties to the life and legacy of Harry Weinberg, as well as communities where Weinberg Foundation trustees reside and provide leadership. Since 1990, the Foundation has distributed grants totaling more than \$2.7 billion.

Overview of Baltimore Operations

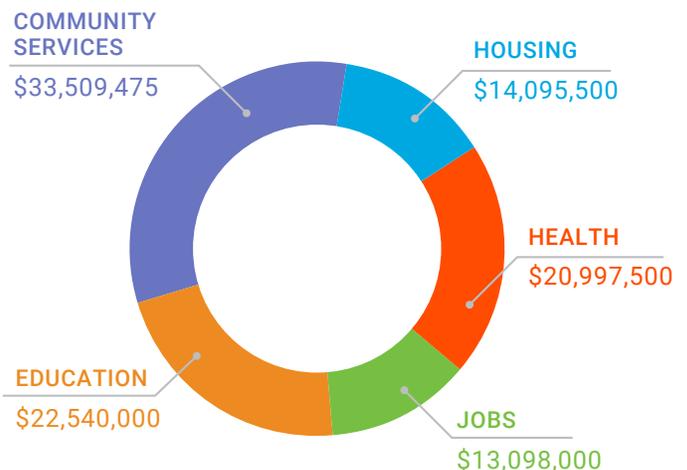

The Greater Baltimore region has served as home to the Foundation's headquarters since its founding by Harry and Jeanette Weinberg in 1959. The Foundation as we know it today has existed since 1990. Today, approximately 25 percent of the Foundation's approximately \$150 million in annual grantmaking supports direct service providers in Greater Baltimore, operating across all of the Foundation's focus areas: Housing, Health, Jobs, Education, and Community Services.

Overview of Baltimore Grantmaking 2019 – 2021

GRANT APPROVALS BY GRANT TYPE:

GRANT APPROVALS BY FOCUS AREA:

Strategic Initiatives

Every year, the Foundation—through careful due diligence—approves and distributes hundreds of grants, totalling tens of millions of dollars, in support of nonprofit organizations that provide direct services to people experiencing poverty. However, these numbers alone present a superficial and incomplete picture of the broader, significant impact the Foundation—in fact, any grantmaking organization—can achieve through the power of long-term partnerships and collaborations: the whole really is greater than the sum of the parts.

Today, as part of its philanthropic growth and refinement, the Foundation is increasingly focused on strategic grantmaking across multiple portfolios. For example, of the Foundation's \$130 million in 2021 grant funding, nearly half was invested in proactive, strategic efforts such as those highlighted below.

AGING IN COMMUNITY COLLABORATIVES

Housing Upgrades to Benefit Seniors (HUBS) in Baltimore City and Baltimore County Age-friendly Upgrades for Seniors (BCAUSE) are collaborations of nonprofits, local government, and philanthropy to enable low-income older adult homeowners to remain independent by providing home modifications and repairs—including grab bars, electrical and plumbing repairs, and roof and furnace replacements—in addition to wraparound services. To date, the Foundation has invested \$9.3 million in these initiatives, which serve more than 2,500 older adults.

BALTIMORE CITY COMMUNITY GRANTS PROGRAM

Launched in 2018, this program was created to provide a pathway for smaller nonprofits to receive funding through a streamlined application process with fewer eligibility requirements than the standard grant application. Through the end of 2021, the program awarded 88 grants, totaling \$682,500, to small nonprofits in Baltimore. Applicants must operate in Baltimore, have an annual operating budget of less than \$500,000, and provide services that align with the Foundation's funding priorities. Applicants may apply for up to \$20,000 annually to assist with general operating expenses, program, or capital costs, including equipment purchases, capacity building (e.g., evaluation and audit costs), and other eligible expenses.

BALTIMORE ELEMENTARY AND MIDDLE SCHOOL LIBRARY PROJECT

The Foundation has committed \$15 million to this multi-year, collaborative effort involving more than 30 community and government partners. The Library Project builds or transforms Baltimore City Public School libraries in neighborhoods where many students face academic and economic challenges. By 2024, the Library Project will serve nearly 9,000 students, as well as their families, through 19 new libraries (17 completed to date) and will have leveraged more than \$30 million in additional federal, state, and local funds.

BALTIMORE SUMMER FUNDING COLLABORATIVE

This more than \$3 million annual partnership, which has grown to include nearly a dozen funders each year, has distributed more than \$22 million in grants over the last six years, including nearly \$8 million from the Weinberg Foundation. The SFC supports high-quality summer programs for children and youth. Programs address one or more of the following areas: literacy; STEM (Science, Technology, Engineering, and Math); youth employment; college and career readiness; environmental education; health and overcoming stress and trauma; and enrichment, including sports and arts programming.

FOCUS ON NEIGHBORHOODS

In 2020, the Foundation partnered with Central Baltimore Partnership to launch the Greenmount Life, Opportunity, and Wellness initiative (GLOW). This multi-year strategy focuses on the neighborhoods of Midway, Barclay, and Greenmount West to ensure every resident has access to primary health care, healthy food, and enrichment opportunities for youth.

Highlighted Grants

In addition to strategic initiatives, in which the Foundation has taken a leadership or “catalyst” role over several years, the Foundation also wishes to highlight the following grants. These grants, representing different portfolios, also demonstrate—even at lesser funding amounts or for shorter periods of time (compared to strategic initiatives)—the Foundation’s emphasis on collaboration, as well as leveraging other sources of funding to achieve greater impact.

COORDINATED CARE AND MENTAL HEALTH ACCESS FOR VETERANS

The Foundation has partnered with Everymind and Headstrong, committing \$1 million of multi-year support, to launch ServingTogether, a coordinated care and referral network to streamline services for veterans, and to create a new network of specialized clinicians to address mental health needs for veterans and their families throughout Central Maryland. These two partnerships have aligned to improve access to the multiple, interrelated services needed to holistically address the health needs of low-income veterans, including high quality, trauma-informed mental health care, housing, and employment.

WAGE RECORD STUDY FOR MARYLAND GRANTEES

The Weinberg Foundation committed \$200,000 in 2020, in partnership with the Abell Foundation and Annie E. Casey Foundation, to support a Wage Record Study through the Baltimore Workforce Funders Collaborative (BWFC). The BWFC contracted with the Jacob France Institute to analyze pre- and post-training earnings for participants of Maryland’s workforce development programs, in order to better understand the long-term impact of workforce interventions.

YOUTH HOMELESSNESS DEMONSTRATION PROGRAM

The Foundation committed \$400,000 to support several organizations in Baltimore implementing the Youth Homelessness Demonstration program—a two-year initiative funded by the US Department of Housing and Urban Development (HUD) to address youth homelessness in 44 communities across the country. The Foundation’s support leverages \$3.7 million in federal government dollars, half of which is eligible for annual renewal. This partnership engages youth with lived experience, nonprofit providers, and systems leaders to help design, implement, and evaluate pilot programs. The program ultimately seeks to provide youth with pathways out of homelessness and to develop the necessary skills to become economically independent.

Selected Grants in Baltimore

Provided below are selected, active grants of \$50,000 or more approved from 2019 through 2021, organized by focus area:

HOUSING
